

Illustrating Jane Austen's Juvenilia

Chawton House Library Fellow's Lecture
on
15th May 2008

Professor Juliet McMaster, University of Alberta, created a picture book for children, illustrating Jane Austen's youthful work, 'The Beautiful Cassandra'. This led to her creation of the Juvenilia Press, a press devoted to producing editions of the early works of authors, with student involvement in the editing process. McMaster will discuss and explain her choices in illustrating young Jane's wild and wicked early works, including 'The History of England', 'Lesley Castle', and 'Lady Susan'.
